- Worldwide shipping

## About us

In 2004, in Paris, Jeanne created La Galerie Jeanne Robillard: a renowned French gallery dedicated to children's book illustrations.

She directed the Gallery for 10 years, during which she devoted herself to the promotion and distribution of artwork from children's books, creating over 30 on-site exhibitions and more than 50 travelling exhibitions of children's book illustrations for cultural institutions such as libraries, schools, and book fairs, in addition to organising on-site and online sales of artwork.

In 2018, in Sydney, Jeanne created Jolie Galerie to promote and share Australian and French children's book illustrations through: exhibitions-sales, workshops, conferences and workshops (French Alliance in Canberra and Sydney).

As of 2020, Jolie Galerie is based in Champagne in France and continues to promote the art of illustration. The gallery has recently extended its passion for illustration to a new project: the creation of illustrated wallpapers based on original illustrated artwork and the realization of frescoes or painted murals at home.
